With reference to the attached translation of an article called "Union to Establish Justice on Earth", the original of which appeared in the "Shanghai Zarya" of February 21, signed by Z. Voronina, Initiator and first member of the Union, inquiries go to show that the lady in question, who is so far the only member of the Union, resides at 41 Joffre Terrace, Avenue Joffre, and appears to be mentally affected. In 1925 Mrs. Voronina arrived in Harbin from Moscow and for 4 years was employed as a teacher of the English language and governess. In December 1928 she left Harbin for Tientsin and on being unable to find employment arrived in Shanghai on February 1. Her object in coming to this city is to establish the "Union to Establish Justice on Earth", but as her attempts to do this are treated by the Russian Community as a joke, she is not likely to be successful.

Translation from the "Shanghai Zarya" Feb. 21 (Afternoon).

General.

"Union to establish justice on earth".

The purpose of the above Union is to make human beings wise and to establish justice amongst them. The method to attain this is as follows:-

- I) The establishing of peace in one's soul. Every member of the Union must feel at peace. To attain this ideal such member should train him or herself to it if unable to experience it at once.
- The way to train. What should not be done:-
- 1) Not to eat meat. To remember that the consumption of meat is an animal instinct and the source of all vice.
- 2) Not to give way to despair. To remember that sadness is a result of wrong actions.
- 3) Not to get angry. Impatience is a result of attachment to trifles of life. In order to avoid anger and impatience it is necessary to dwell on things of more importance.
- 4) Not to be envious. Envy is a result of indolence. It is necessary to work hard in order to attain one's desires.
- 5) Not to judge your neighbour. Judging your neighbour is a sign of thoughtlessness.
- 6) Not to tell lies. Lying is a result of cowardice and is lowering of one's dignity. In order not to lie one should always esteem oneself.
- 7) Not to commit adultery in thought. Adultery is a result of idle thoughts and vanity.

What should be done:-

- 1) To be always gay, assured in oneself, cheerful and friendly. To laugh, sing, dance a lot and to admire nature and flowers. To be similar to children in private life and resemble lions in public life.
- 2) To be reasonable in love, to avoid mistakes. The result of establishing peace in one's soul is eternal youth, the disappearance of sickness and death. A human being who has attained an ideal becomes immortal.
- III) The establishing of peace and quiet in the human race.
- I) To free humanity from the disease of to-day - Red Bolshevism. Bolshevism is the result of the sins of humanity as such. Bolshevism will disappear as soon as the Union to establish justice will become sufficiently extended so as to expiate the sins committed by humanity up to the present time.
- 2) Fraternity unification of the nations.
- 3) The donation of land to the people, who have not got it.

Everyone can become a member of the Union irrespective of sex, age, position, nationality and religion.

All those who will resent being members of the Union will be called grave-diggers, those who will hesitate - errants whilst members of the Union will be known as builders. Any member who has attained the state of ideal will be called an egotist and becomes a participant of another sphere of existence thereby acquiring the gift of all-powerfulness.

Z. Varnina,
Initiator and first member of the Union.

Editorial Note:- This document was presented to us by the initiator herself and we publish it for purposes of information. We cannot quite understand why ~~most~~ all non Vegetarians and those who fail to enrol as members of the Union are called "Grave-diggers". We fear in this case that there will be many more millions "grave-diggers" than members of the Union.
